I told them it was very strange that if I were trying a union man a lot of union men were called for jury service, and that if I were trying a crooked banker a lot of crooked bankers were called into the box. ## Why Physicians Recommend Castoria

ASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: First-The indisputable evidence that it is harmless: Second-That it not only allays stomach pains and quiets the nerves, but assimilates the food: Third-It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is

unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system-not by stupefying it-and our readers are entitled to the information. - Hall's Journal of Health.

Dr. R. M. Ward, of Kansas City, Mo., says : "Physicians generally de not prescribe proprietary preparations, but in the case of Gasieria my experience, like that of many other physicians, has taught me to make an exception. Any physician who has raised a family, as I have, will join me in heartiest recomation of Castoria."
